PRESS RELEASE ON THE ACTION OF SENATOR TED CRUZ AGAINST NIGERIANS IN THE DIASPORA

Nigerians in the diaspora organization Americas (NIDOA), the premium organization representing the interest and reputation of all law abiding Nigerians in the continent of America (North/South) with friends of Nigeria hereby release the following statement.

We write to express our outrage at the odious remarks credited to Senator Ted Cruz of Texas, in which he weirdly related email scamming with the Obamacare website, and then inserted a reference to Nigerians somehow in between. Joke or not, we consider the remark highly offensive and not worthy of the high office that he represents, and certainly not worthy of the millions of Nigerians and their friends who voted him into office. Taking out on Nigerians his apparent frustration over President Barack Hussain Obama's recent re-election, Obama's ground-breaking health care program roll-out, and the recent roll-back of US government shut-down, is completely un-acceptable to us.

We demand an apology, acceptance of which will be predicated on the speed of its issuance, sincerity and our judgment of its genuineness.

The ball is in his court.
