NIDOA PRESS RELEASE!!

We find ourselves once again at the forefront of the war against the biggest threat of the 21st century, terrorism. NIDOA joins the world and our motherland Nigeria, in condemning the despicable act of terrorism perpetrated on our young girls by the notorious “Boko Haram” terrorist group in Northern Nigeria.

We vehemently denounce these atrocious acts of inhumanity to man and implore our government to use every means necessary, within their disposal, to combat this threat. Nigeria currently stands at the threshold of becoming the fastest growing economy in the African continent and amongst the leading emerging economies of the world. We must not allow these hoodlums to usurp our glory and at such, we are asking that all Nigerians in the diaspora join in this effort to apprehend this evil group.

While we understand the painful effect of these terrorist acts, we must also caution that we;

1. Allow the various agencies currently tasked with tackling these menace to exercise their duties without compromising their effort.
2. That the lives of these over 200 girls should not be politicized.
3. That people should tone down the rhetoric’s that may impede the on-going multi-lateral engagements on this effort.

Finally, our heart-felt sympathy goes out to the families of the victims and we pray and hope for the release and safe return of your children soon. The Nigerian discourse is our collective responsibility. Let us rise to the challenge of creating a better world. Long live Federal Republic of Nigeria!!
